

YANIV LEVI – Senior Product Manager

Rehovot, Israel | +972 50-862-3138 | yanivle1@gmail.com | [LinkedIn](#)

Strategic Senior Product Leader with 12+ years of experience driving complex B2B and B2B2C platforms from initial concept (0→1) to global scale. Expert in AI-native workflows and GenAI productization, with a proven track record of delivering high-impact MVPs in regulated, high-scale environments. Highly skilled in owning OKR-driven roadmaps, leading cross-functional squads, and leveraging deep experimentation frameworks to drive measurable growth, conversion, and retention gains.

EXPERIENCE

Senior Product Manager | IronCircle (Cybersecurity, AI & EdTech Start-up) | 2025–Present

- 0→1 Ownership: Defined and owned the MVP roadmap through deep user discovery, market research, and interviews to uncover search intent and prioritize high-impact distribution needs.
- AI Integration: Designed GenAI-driven recommendation engines to enhance user engagement and automate complex workflows, utilizing Claude and Lovable for rapid prototyping.
- Stakeholder Alignment: Led cross-functional squads (Eng, Data, Design) to deliver scalable solutions under tight deadlines..

Lead Product Manager | GO7 (Travel-Tech Scale-Up, B2B2C) | 2023–2025

- Built and scaled a PM team of 3; established structured delivery workflows, improving squad velocity and reducing dependencies.
- Owned white-label distribution strategy for travel partners; launched a scalable search & booking platform, driving ~20% conversion lift.
- Led redesigns and continuous discovery in search layers, improving retention (~20%), reducing inventory errors (~30%), and increasing CSAT (~25%).

Senior Product Manager | Matrix (Enterprise, B2C) | 2020–2023

- Led a 15-person squad delivering high-scale eCommerce SaaS serving millions of users annually.
- Shipped KPI-driven roadmap boosting sales (~25%) via funnel optimization, A/B testing, and search-to-checkout experimentation.

Product Manager | Migdal Insurance (Enterprise, Insurtech) | 2017–2020

- Delivered distribution platforms for 50K+ users; led discovery, MVP definition, and GTM, achieving full onboarding 50k users within 3 months.
- Translated complex regulatory requirements into compliant features; high-adoption features.

Project Manager | Visonic Group (R&D, Hardware/Security) | 2010–2017

- Led end-to-end R&D validation projects for security hardware lines, improving release readiness and time-to-market.
